

acm International Collegiate Programming Contest Practice

Where: HRBB, Room 229

When: Thursday, 15 September
2005 at 7:00 P.M.

Contact: icpc@cs.tamu.edu

What does it include?

- C/C++/Java programming
- Programming problems
- Mini-Lectures on special topics
- Free Pizza

Come thursday for a free practice disc.

“This is my KNOPPIX disc. There are many like it, but this one is *mine*. My disc is my best friend. It is my life. **I must master its compilers** as I must master my life. My disc, without me, is useless. Without my disc, I am useless. I must code on my disc true. I **must compile faster** than my enemy who is trying to outsource me. I **must outhack him** before he hacks me. I will... Before Dijkstra, I swear this creed. My disc and myself are defenders of our Aggie Spirit. **We are masters of our enemy.** We are the saviours of multi-paradigmatic programming... So be it, until victory belongs to the Texas A&M.”

Like programming? There are many kinds of people in the world, but we all know that it can all be reduced to the following: `person->canCode() ? true : false`. If you evaluate to a non-zero integer, then you should **come to our ACM ICPC Programming contest practice**. Don't think that you're good enough? You may be surprised; with enough practice, you too can go to the ACM ICPC Regionals and **Beat the hell outta t.u.** We did it last year and we can do it this year, but we need your help.

Win great prizes and be the envy of
`you->potentialPartner()`! Don't call `delay()`!
