

acm International Collegiate
Programming Contest
Practice

Where: HRBB, Room 229

When: Thursday, 8 September 2005
at 7:00 P.M.

Contact: icpc@cs.tamu.edu

typename T

What does it include?

- C/C++/Java programming
- Programming problems
- Mini-Lectures on special topics

I'm sorry, you're not my type. Or are you?

"I'm very typical, so to speak. Sometimes I'm static. Other times I'm dynamic. I could be weak or I could be strong. I facilitate polymorphism on occasion. Some days I feel primitive, but it's not my fault, I'm merely cast that way."

Like containers? There are many kinds of people in the world, but we all know that it can all be reduced to the following: `person->canCode() ? true : false`. If you evaluate to a non-zero integer, then you should **come to our ACM ICPC Programming contest practice**. Don't think that you're good enough? You may be surprised; with enough practice, you too can go to the ACM ICPC Regionals and **Beat the hell outta t.u.** We did it last year and we can do it this year, but we need your help.

Win great prizes and be the envy of
`you->potentialPartner()`! Don't call `delay()`!
